

# **Mobile Application development Assignment#1**

## **Instructions**

- You will be submitting Github link for your application.
- Marks out of 20.
- Late submissions will be penalized by 10% per day.

## **Submissions**

Github link

## **Tasks**

- Create an app of your choice as a topic that uses several views with at least a Button and Spinner with their Listeners (setOnClickListener and onItemSelectedListener), accordingly.
- Upload the application into Github and send the link.

## **Grading Scheme:**

- 5 marks for UI.
- 5 marks for working Button setOnClickListener.
- 5 marks for working Spinner onItemSelectedListener.
- 5 marks for creativity and overall quality.

Any similarities will be penalized and receiving **zeros/20**.
